

Knights of GP: Community-Powered Future

A revolutionary co-op ecosystem where customers, consultants, ISVs, and partners unite to keep Microsoft Dynamics GP thriving beyond Microsoft's support end date.

Community Ownership

A cooperative model where members control the future of GP together, ensuring decisions benefit all stakeholders.

Sustainable Funding

Subscription revenue directly funds Dex developers to create features, maintain compliance, and adapt to changing regulations.

Community Support

Connect with experts in all areas of GP and access to archives of GP guidance and documentation, preserved into the future.

Why Join Knights of GP?

1 Continued Innovation

New features developed by experienced Dex developers as business needs evolve

2 Regulatory Compliance

Stay current with changing tax laws, reporting requirements, and industry standards

3 Community Support

Access expertise from consultants, partners, and fellow users who know GP inside-out

4 Protect Your Investment

Keep your GP system running smoothly without forced migrations or costly replacements

The Co-op Advantage

Traditional Support Model

- Vendor-controlled roadmap
- Enhancement fees
- Limited customization
- Forced upgrades
- Support ends abruptly

Knights of GP Model

- Community-driven priorities
- Direct development funding
- Flexible solutions
- Your timeline, your choice
- Perpetual community support

For Customers

Maintain your trusted GP system with confidence. Get continued support, updates, and features developed by people who understand your needs.

For Consultants

Preserve your expertise and client relationships. Participate in shaping GP's future while maintaining steady revenue streams.

For ISVs & Partners

Monetize your Dex development skills. Build features the community needs and get paid directly from subscription funds.

Coming soon... join the movement

Knights of GP represents a new model for enterprise software: community-owned, sustainably funded, and built on collaboration. Together, we'll ensure Microsoft Dynamics GP continues serving businesses long into the future.
